

DELIVERING WATER

WHERE IT'S NEEDED MOST

WHEN WATER BECOMES THE CHALLENGE

When trucks run dry and the nearest hydrant is miles away, success depends on getting water from the source to the fireline—fast.

BRINGING WATER TO THE FIRELINE — WHERE VEHICLES CAN'T REACH

Shibaura portable fire pumps are engineered to transform lakes, rivers, ponds, and other remote water sources into dependable firefighting water supplies.

WHY SHIBAURA

-  70+ years of engineering for fire, rescue, and disaster response.
-  Trusted in demanding operations worldwide.
-  Built for reliability in demanding conditions.

WHY KOJEX

-  Official Canadian Distributor for Shibaura.
-  Local parts, warranty, & technical support.
-  Product expertise and responsive customer support.
